Sayed Ragheb

El-Nile Street, Arayshaya Masr, Ismailia City, Egypt, 41517 1 • +201098454946 • sayedragheb92@gmail.com

Front-end developer with hands-on experience in building interactive user interfaces using React and Next.js. Completed certifications in front-end development from Meta (Coursera), IBM, and Microsoft, in addition to a front-end diploma from Route Academy. Worked on a range of projects including e-commerce platforms, portfolio websites, and applications inspired by platforms like Facebook and Instagram. Focused on performance, user experience, and responsive design based on modern web standards.

Experience

Developed and optimized responsive, interactive, and scalable web applications with a strong focus on performance and user experience. Completed over 70 diverse projects, including e-commerce platforms, portfolio websites, and custom applications. These projects included concepts inspired by popular platforms like YouTube and Facebook, as well as a wide range of original and creative ideas — all delivered with seamless functionality and high-quality standards aligned with modern web practices.

Worked as a freelancer for over a year, handling a variety of front-end development tasks and delivering reliable, well-structured solutions tailored to client needs.

Professional Experience – Syber Company
Worked for 1 year and 2 months at a company called Syber, where I was responsible for converting Figma designs into fully functional, responsive front-end applications. Gained valuable experience in translating UI/UX concepts into clean, efficient code using modern front-end technologies. Despite the company eventually shutting down, the role significantly enhanced my skills in collaboration, problem-solving, and delivering production-ready interfaces.

Education

- IBM Front-End Developer Certificate – Coursera
- Microsoft Front-End Developer Certificate – Coursera
- Front-End Development Diploma – Route Academy
- Meta Front-End Developer Certificate – Coursera
- Bachelor of Arts in Population Studies (B.A.) | Suez Canal University | Ismailia, Egypt | Pass grade
